Health & Productivity.

I don't have an extra room available for my home office, so Hybrid Home is ideal.

Working from home brings extra challenges. Not everybody has the space or wants to allocate the space at home for a home office. With that in mind Markant developed the Hybrid Home. A complete ergonomic desk like you are used to in the office, adapted for home use.

Hybrid Home makes every living room a dynamic sit to stand workplace.

The cabinet is easily transformed into a complete desk.
